

A118 NOW HIRING! ARCHITECT

THE POSITION: We are looking for a qualified architect or design professional with 5+ years of experience. Ideal candidates are self-motivated and can work through all aspects of commercial and residential projects from preliminary design through construction administration with minimal supervision in a fast-paced, collaborative environment.

ABOUT US: Architecture One Eighteen was founded in 2004 with a passion for integrating design and construction efforts to deliver the highest value to clients. We strive to bridge the gap between these occasionally distinct, yet mutually dependent aspects of creating the built environment. The small team culture at A118 encourages all staff to assist and help each other in various capacities. Our office is located in the Cannery District in Bozeman, Montana, and serves locations across Montana. To learn more about our company and view some of our completed projects, please explore our website at arch118.com.

IDEAL APPLICANTS: Project management level experience is preferred as this position requires responsibility for full project design, production and coordination. Position will likely involve oversight of other team members. Experience in all phases of an architectural project is preferred. Architecturally licensed professional is preferred, but individual in final stages of licensure or with relevant experience will be considered. Revit, AutoCAD, and Microsoft Office experience required. ArchiCAD, Photoshop and Lumion experience is welcome. Excellent written and verbal communication skills are required.

A118 offers a competitive salary and benefits. Salary will be dependent on qualifications and experience.

Please contact us to schedule a meeting or e-mail a cover letter, resume, references and portfolio to inquiries@arch118.com to be considered for this position.
