

NOW HIRING! ENTRY LEVEL

THE POSITION: We are looking for entry level design professionals. Ideal candidates are self-motivated and excited to learn all aspects of the profession including commercial and residential projects from preliminary design through construction administration.

ABOUT US: Architecture One Eighteen was founded in 2004 with a passion for integrating design and construction efforts to deliver the highest value to clients. We strive to bridge the gap between these occasionally distinct, yet mutually dependent aspects of creating the built environment. The small team culture at A118 encourages all staff to assist and help each other in various capacities. Our office is located in the Cannery District in Bozeman, Montana, and serves locations across Montana. To learn more about our company and view some of our completed projects, please explore our website at arch118.com.

IDEAL APPLICANTS: Bachelor of Architecture or Masters of Architecture degree preferred. Prior professional experience is preferred, however individuals in final stages of education will be considered. Revit, AutoCAD, and Microsoft Office experience is preferred. ArchiCAD, Photoshop and Lumion experience is welcome. Excellent written and verbal communication skills are required.

Architecture 118 offers a competitive salary and benefits. Salary will be dependent on qualifications and experience.

Please contact us to schedule a meeting or e-mail a resume, references and portfolio to inquiries@arch118.com to be considered for this position.
